

Transform with AI. Defend with AI. Achieve with AI.

We empower businesses to achieve meaningful outcomes through AI transformation, secured by proactive defense and fortified with unyielding enterprise resilience. Advisory, integration, and operational services for organizations navigating technology change, cyber risk, and operational disruption.

Transform

Governed AI strategy, architecture, and adoption that produces measurable outcomes.

Defend

Security leadership, compliance ownership, and 24/7 detection and response with bcxBastion.

Achieve

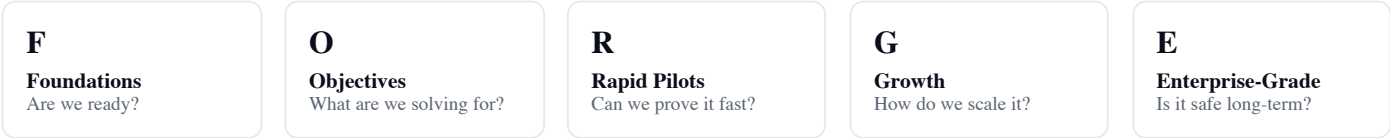

Resilience and outcomes in writing: board-ready reporting, renewals passed, deadlines met.

Start with clarity

Entry point	Duration	You get
AI Readiness Assessment	1 to 2 days	Alignment, readiness view, priority opportunities and risks, next steps
AI Accelerator	3 to 6 weeks	AI strategy, use-case portfolio, roadmap, governance direction, architecture
Cyber & Resiliency Posture Assessment	3 to 6 weeks	Maturity and posture, prioritized gaps, roadmap, owners, budget ranges
Fractional leadership retainers	Monthly	vCISO \$4,500 to \$12,500 per month; compliance-heavy \$10K to \$20K

FORGE: one framework across AI, cyber, and resilience

A typical mid-sized company runs the full journey in nine to twelve months.

bcxBastion: security operations that never close

Everything watched in one place, AI-assisted triage with human decisions, 24/7 response path, monthly board-ready reporting. Built on a best-of-breed stack, run by senior BCX analysts.

Why bostoncyberx

eXperience.

Decades with enterprises across finance, government, defense, retail, travel, and manufacturing.

eXpertise.

AI in business since 2015, not since the ChatGPT moment. Every security and resiliency domain.

eXecution.

Big-firm capability without cookie-cutter bureaucracy. Fixed scopes and deliverables in writing.

88%

of SMB breaches involve ransomware (Verizon DBIR)

40%

of SMBs say a \$100K incident could close them (VikingCloud)

\$3.04B

yearly BEC losses (FBI IC3)
